

## OFFSET SULKIES (BANNED EFFECTIVE 1 SEPTEMBER 2020)

AUGUST 21 2020

**HRNSW Stewards remind all industry stakeholders that effective 1 September 2020, all offset sulkies are banned for use. This follows a five year phasing out period.**

HRNSW further reminds industry that the use of a modified offset sulky will not be permitted and action under the Australian Harness Racing Rules (AHRR) will be taken against individuals who use or attempt to use a sulky which has not been approved by Harness Racing Australia (HRA).

HRNSW reminds participants that it is their responsibility to ensure that their sulky is both approved and in good working condition at all times. The HRA Approved Sulkies list is found here;
